M. Danyal Shah Khan

Github: https://github.com/Danyal494

I am a passionate Frontend Web Developer with a knack for creating dynamic and interactive web applications. With expertise in React, Three.js, and Next.js, I love bringing ideas to life in 3D graphics and animations. I graduated with a Bachelor of Science in Computer Science on May 8, 2024, and have since honed my skills in advanced HTML, CSS, and JavaScript, as well as responsive design and cross-browser compatibility. My projects range from 3D globe visualizations to interactive scenes. I'm known for being honest, punctual, adaptable, and a strong team player with excellent problem-solving abilities.

Work Experience

junior Frontend Developer, Heapware

May 2024 - current

- Contributed to the development and upkeep of web applications using the MERN stack.
- Worked with Three.js to create visually appealing designs, seamlessly integrating logic and animation, which captivated clients and enhanced their user experience.
- Engaged in the full software development lifecycle, from planning and design to deployment and ongoing maintenance.
- Debugged and enhanced the performance of existing applications.
- Collaborated with senior developers to learn and apply best coding practices.

Intern Frontend Developer, Ideoversity

Feb 2024 - April 2024

- Built and maintained dynamic web applications with React.js and Next.js, focusing on creating a solid and scalable front-end architecture.
- Used CSS, Bootstrap, and Tailwind CSS to make sure designs were responsive and performed well across all kinds of devices.
- Developed and connected RESTful APIs to ensure smooth data flow between the front-end and back-end.
- Combined Three.js with React.js and Next.js to create visually stunning front-end web designs.

Educational Background

Bachelor of Science (Computer Science)

University Of Management And Technology
08-05-2024 graduated   Lahore, Pakistan

FSc Pre-Engineering

Government College Township
03/2016 - 09/2018   Lahore, Pakistan
